{ 5 Series Ink }

- Barcodes printing : Suitable for printing various 1D & 2D barcodes
- Longer Shelf Time : Adopts mild solvent base and corrosion resistance nozzles, with a longer shelf time.
- More Color Options : More colors available, like blue, red, yellow, white etc.
- Wider application range : Suitable for pharmaceutical, food & beverage, electric, Plastic, building material, metal industrials etc: Can print on most of the non-porous Materials like aluminum, PVC, PE, metal, circuit boards, etc.

{ 9 Series Ink }

- **Key Features** : Ideal for clear printing on metal and plastic substrates. Delivers higher optical density and darker black print performance than 6 Series ink.
- **Recommended Substrates**: Metal, plastic.

Bulk Ink Cartridge

- **Key Features** : Ideal for clear printing on most uncoated porous substrates.Offers Excellent smear resistance and water resistance,with outstanding barcode readability.
- **Recommended Substrates**: Wood,building materials,corrugated cartons,and other absorbent materials.

Model	Color	Type
71B Ink Cartridge	●	Fast-Drying
76B Ink Cartridge	●	Darker Black

{ 1 Series Ink }

- **Performance** : good on porous materials,fade-proof and water-proof,great for barcodes printing. Suitable for wood,building materials,uncoated etc.

{ 2 Series Ink }

- **Performance** : good on porous and semi-porous materials,short dry time,long lasting. Darker than 1 series ink.Suitable for coated paper,white card paper,uncoated Semi-porous materials.

{ Egg Printing Ink }

- **Performance** : food grade,FDA certificated.Suitable for egg printing

Sojet 11L+ (Bulk Ink System)

Sojet 26L (Bulk Ink System)

{ 6 Series Ink }

- **Key Features** : Ideal for clear printing on most uncoated porous substrates. Offers excellent smear resistance and water resistance, with higher print darkness and outstanding barcode readability.
- **Recommended Substrates** : Wood, building materials, corrugated cartons, and other absorbent materials.

UV Cartridges
